

Küresel Model Numarası (GMN) Oluşturucu Kullanım Kılavuzu

(Sağlıkta Temel UDI-DI Numarası Oluşturucu)

Generate or validate the GMN

Note: the GMN (Basic UDI-DI) is used for regulated healthcare medical devices under the EU MDR and EU IVDR. The GMN generator is used to generate the GMN based on a GS1 Company Prefix and an internal number, or model reference.

GS1 Company Prefix

Internal number, or model reference

Check character pair *

[Clear input](#)

Caution: All characters in the GMN are case sensitive

*(for GMN validation only)
